"Consider the lilies of the field how they grow; they toil not, neither do they spin: And yet I say unto you that even Solomon in all his glory was not arrayed like one of these. Wherefore, if God so clothe the grass of the field, which today is, and tomorrow is cast into the oven, shall He not much more clothe you. O ye of little faith?"

—Matthew 6:28-30.

# FORWARD

Greetings to All Flower Lovers Everywhere:

It is with pleasure that I bring to you my 1953 Annual Flower list. As you see I am sending you a sheet or list, describing hundreds of Iris and Other Flowers, Plants, Etc. This I decided to do to cut printing cost, and at the same time cut prices on many varieties of Iris and other plants so that you can have a whole gardenful of fine flowers at a reasonable price. Don't forget to take a look at the FREE PREMIUMS OFFER I am giving again this year.

I also want to say a word about the older varieties of Iris. I have discontinued some thirty-five varieties which were sold out last season. I must do this to give room for the newer ones I am planting each year. I would advise you to order the ones you want, especially in the 35c class early, because I know many of them will be gone before another year.

Now many thanks for your orders and fine letters I have received during the last year. I hope you will enjoy a happy season this year with your flower garden. May the Lord richly bless you and keep you. Remember, you and your friends are always welcome at my gardens. Peak blooming season is the last week in May or the first week in June.

Sincerely yours,

T. H. LEEMHUIS, Proprietor.
